ABSTRACT: Research This aim do evaluation of coaching School Trio Muda Football uses the CIPP (Context, Input, Process, Product) model Study This use Mix Method. Object evaluation is SSB Trio Muda. Five Administrators , Five Coaches and 15 Parents athlete chosen in a way on purpose For fill in questionnaire and one from each aspect of SSB Trio Muda (Manager , Coach , Parents Athletes) as participant interview . Data collection was carried out as following : (1) do observation , observing news about object evaluate , observe activities at SSB , training and matches team , (2) do documentation , (3) implementing charging questionnaire and (4) carry out interview with 3 participants . Validation Instrument using 'Expert Judgment' and quantitative data analysis with using SPSS, then quantitative and qualitative data done triangulation. Criteria success used for do evaluate each CIPP component with four categories: Very Good, Good, Poor and Very Poor. With combined CIPP analysis with coaching indicators, obtained results evaluation from context aspect which includes; background behind; objective coaching; coaching program including category good with value 3.11. In terms of input which includes; funding; means infrastructure; source Power human and parental supportincluding category good with value 3.00. In terms of process which includes; program implementation and coordination including category good with value 3.23. In terms of products which include achievement and well-being including category Good with value 2.98. So that can concluded coaching School Football (SSB) Young Trio incl in category Good.

KEYWORDS: CIPP Evaluation, Coaching, SSB Young Trio

INTRODUCTION

Implementation coaching covers organization, training programs, facilities and infrastructure, and funding (Adzalika , 2019:35). Elements the will become A mutual systems related in a coaching program. For operate system it is at the School Football need exists curriculum as guidelines coaching and management as manager coaching. Football in Indonesia has parent organization that is Unity Football All of Indonesia (PSSI) is responsible on search seeds national team and its implementation competition Good national, provincial, district and regional. PSSI has a number of level as proof that organization Can coordinated with Good. PSSI divided a number of level namely Central PSSI, ASPROV PSSI and ASKAB PSSI. School Football (SSB) is beginning a player in start or start Study understand game football and is A the right container. Moment this most SSB starts fulfilled child for competing register self. This matter is something good phenomenon, because SSB functions as root coaching performance football capable local prepare seeds player talented for support club in need. On the other hand, SSB also provides motivation For form personality as well as good attitude like disciplined, orderly and honest.

School Young Trio Football was founded in 2012. School Trio Muda Football was founded by (the late) H. Boedoyo . The goal of the young SSB Trio is print seeds young as successor in the Senior Young Trio club and entered as PSS Junior players. School Youth Trio Football is formed on awareness perpetrator sports in the village Jogotirto as center nursery child young branch football. School Youth Trio Football in regional divisions entered group east. Association individual that at the end more known as organization. Where is the organization own definition diverse as explained by Jones (2004), in Harsuki (2013: 106) that organization is something tools that people use to coordinate his activities For reach something they want or value , that is For reach the goal . Sondang P. Siagian , in Harsuki (2013: 103) stated that organizing is the overall process of grouping people, tools , tasks , responsibilities responsibility and authority like that appearance , so created something organizations that can moved as something unity in frame achievement goals that have been determined . In the carry out activity organizational Of course required effort management and organization or more known with term management organization within it there is various required fields managed. Management School Youth Trio Football in operate activity have a number of constraint. Manager School Football have desire free from Government Village, because during two year This Already No budgeted in a way APBDes . On- site environment exercise School

Evaluation of Young Trio Football School (SSB) Development

Youth Trio Football after researcher observation get results, lack of concern public around especially in the private sponsorship sector still Not yet care exists organization development seeds young branch sport football in the Village Jogotirto . Researcher see performance organization in School Football is very lacking, because administrator constrained in produce one objective. Besides administrator have work others, administrators have responsibility do Young Trio Club managerial and caring field. Manager No make regulation problem administration students, so parent Still Lots late in payment administration monthly student. Researchers also get results amount cost administration every lowest child between School Other football in the District Sleman , p This will effect on performance administrator nor procurement means For activity School Youth Trio Football .

School Youth Trio Football is held every two Sunday once, namely on the day Wednesday afternoon and Sunday Morning. School Football when carry out exercise all SSB Trio Muda routines preparation carried out by the trainer, temporarily in management School Football have part equipment. Manager often present when School Young Trio Football test matches and tournaments , temporary parent expect administrator School Football someone is present and monitoring as reciprocity for the future student the . In matter this is the one that suffers the most that is student School Football , because as good as whatever student practice and be as good as possible whatever coach in practice No will enter team PSS Sleman Academy if administrator School Football No There is coordination with team searcher talent PSS Sleman Academy . School The new Youth Trio Football channel two child entered PSS Junior, even though School Another football already channel Lots child every the year . Opinion researcher strengthened with phenomenon rarely Child School Eastern region football is in PSS Academy, temporary PSS Sleman Academy during This dominated School West and Central region football. One of implementation from innovative thinking is with do it study evaluation with using the context, input, process and product (CIPP) model. Remember importance evaluation when reform performance management from something organization, questions importance refers to the evaluation model That Alone. According to Hansen (2005: 448) the evaluation model (or design evaluation) establish question you want answered by type evaluation certain, as well determine How arrange criteria evaluation.

With the CIPP research model evaluation done in a way comprehensive For understand program activities started from beginning the emergence of an idea or program objectives achieved the results achieved after the program is implemented (Wiyanto , 2017: 883). Various study management sport using the CIPP model has been in a way effective For evaluate something program success. Start from Evaluation implementation of the coaching program branch Beach Volleyball sport that aims reach performance athlete ; do evaluation to policy government area in effort For coaching performance sport in a way general ; and implementation evaluation of the concentration program exercise area in preparation facing the National Sports Week (PON) (Irmansyah , 2017; Prasetyo , Damrah , & Marjohan , 2018; Subagio , 2016). By implementation in the world of research, evaluation with the CIPP model indeed identical with program management because the CIPP model focuses on decisions administrative and delivering framework theoretically possible guide determination quality and benefits the entire program (Klenowski , 2010: 337; Lippe & Carter, 2018: 9). With discussion in a way deep expected the result can give solutions (input & improvements) in context coaching for School Youth Trio Football.

METHOD

Study this is study evaluation using method mixture quantitative and qualitative. Evaluation is a series of decisive processes objective can achieved. Evaluation provide information for make decision. Evaluation is also a search process information about object or the subject being implemented with objective For taking decision to object or subject (Sukardi , 2014:2-3). On research this, which is used is study evaluation with method mixture. He chose method mixture in study this because in study Qualitative and quantitative there is each other's weaknesses and strengths. According to Creswell, (2016: 288) "mixing" and combining this data can stated give more understanding strong about formulation problem than done one by one. Idea this is the core of the method new namely "research method mixture". Data source or participant are the school's stakeholders Youth Trio Football. Whereas For determine respondents chosen purposive sample or based consideration certain. With purposive sample method or selected respondents can give information best to problem ongoing researchstudied (Creswell, 2015: 207). Participants in research this there are 3 (Three), namely Manager School Youth Trio Football (5 people), Coach School Youth Trio Football (5 people) and parents student School Youth Trio Football (15 people).

DISCUSSION

Approach used in study evaluation coaching achievements of SSB Young Trio Jogotirto , Regency Sleman This is the CIPP under review from aspects of context, input, process , and product, meaning obtain accurate and objective information as well as compare what has achieved from evaluation coaching achievements of SSB Young Trio Jogotirto , Regency Sleman with what it should be achieved based on standards that have been set . As for the results study evaluation coaching achievements of SSB Young Trio Jogotirto , Regency Sleman based on CIPP aspects are explained as following :

Evaluation of Young Trio Football School (SSB) Development

1. Context Evaluation

Evaluation context related program environment or objective conditions that will held. Containing about strengths and weaknesses about object certain. Stufflebeam (2002:287) states evaluation context as focus institution with identify assessing opportunities need. One need formulated as gap (discrepancy view) condition real (reality) expected conditions (ideality) . Based on results obtained from study use questionnaire to administrators (5 people) and coaches (5 people) were obtained results background behind the program in Table 12 as following:

Table 1. Average Results of Development Program Background Indicators

Indicator	Manager	Coach	Total	Mean	Category
Management	3.13	3.33	6.46	3.23	Good
Athlete Development Strategy	3.10	3,4	6.5	3.25	Good
Development Program Background Indicators				3.24	Good

Based on Table 1 above shows that background behind the coaching program achievements at SSB Trio Muda Jogotirto , Regency Sleman on components management of 3.23 in the category good and coaching program strategy athlete of 3.25 in the category Good . Based on results the show that background behind the coaching program achievements at SSB Trio Muda Jogotirto , Regency Sleman Already walk with Good.

Table 2. Average Results of Coaching Program Goal Indicators

Indicator	Manager	Coach	Total	Mean	Category
Vision and mission	2.8	2.9	5.7	2.85	Good
Target	2,4	2.8	5.2	2.6	Good
Coaching Program Goal Indicators				2.73	Good

Based on Table 2 above shows that coaching program objectives achievements of SSB Young Trio Jogotirto , Regency Sleman on components vision and mission of 2.85 in the category good and a target of 2.60 in the category Good.

Table 3. Average Results of Coaching Program Indicators

Indicator	Manager	Coach	Total	Mean	Category
Coaching and guiding Talent	3.3	3.3	6.6	3.3	Good
Achievement Coaching	3.0	3.8	6,8	3,4	Good
Coaching Program Indicators				3.35	Good

Based on Table 3 above shows that coaching program achievements of SSB Young Trio Jogotirto , Regency Sleman on indicators coaching and guiding talent of 3.3 in the category lacking and coaching performance of 3.4 in the category Good . Based on results the show that coaching program achievements of SSB Young Trio Jogotirto , Regency Sleman Already walk with Good . Furthermore analyzed in a way whole from evaluation context component coaching achievements of SSB Young Trio Jogotirto , Regency Sleman based on indicator background background of the coaching program , objectives of the coaching program , and coaching program in Table 4 as following :

Table 4. Average Results of Context Components

Context Component	Mean	Category
Background to the Development Program	3.24	Good
Coaching Program Objectives	2.73	Good
Coaching Program	3.35	Good
Context Component	3.11	Good

2. Input Evaluation

Source Power man is one of the very important factor even No can released from A organization , in matter This source Power human at SSB Trio Muda Jogotirto , Regency Sleman which includes coaches and athletes . Coach is a professional whose job it is help athlete or team in reach high performance . Coaching process sport must handled by people who are experts in their fields , because For can practice in a way Correct a coach must can determine dose or burden appropriate exercise with need athlete individually . Analysis results indicator Source Power Human SSB Young Trio Jogotirto , Regency Sleman as following :

Evaluation of Young Trio Football School (SSB) Development

Table 5. Average Results of Human Resources Indicators

Indicator	Manager	Coach	Parent	Total	Mean	Category
Coach	2.5	3.0	3.19	8.69	2.90	Good
Athlete	2.5	3.0	2.58	8.08	2.69	Good
Human Resources Indicators					2.80	Good

Based on Table 5 above shows that indicator Source Power Human SSB Young Trio Jogotirto , Regency Sleman on components coach of 2.90 in the category good and athlete of 2.69 in the category Good . Based on results the show that indicator Source Power Human SSB Young Trio Jogotirto , Regency Sleman in category Good .

Practice basically is giving load (stimulus motor) in the body so that give rise to response body form response and adaptation . Response is response direct body during the training process temporary . Adaptation is response body to loading training taking place in period time relatively long and in nature relatively permanent . Irianto (2018: 11) stated exercise is the process of preparing organism athlete in a way systematic For reach quality performance maximum with given burden regular , directed , increasing and repetitive physical and mental activities the time .

Exercise is is something type activity physical need planning , structured , and carried out in a way over and over again with Meaning For increase or maintain One or more component fitness physical (Nasrulloh , et al , 2018: 1). Analysis results SSB Trio Muda Jogotirto coach program indicators, Regency Sleman as following:

Table 6. Average Results of Trainer Program Indicators

Indicator	Manager	Coach	Parent	Total	Mean	Category
Exercise Program	3.33	3.13	3.29	9.75	3.25	Good
Coach Program Indicators					3.25	Good

Based on Table 6 above shows that SSB Trio Muda Jogotirto coach program indicators , Regency Sleman on components coach of 3.25 in the category good and athlete of 3.25 in the category Good . Based on results the show that SSB Trio Muda Jogotirto coach program indicators , Regency Sleman in category Good

Without exists financial support , then coaching No will achieved with maximum . Support it's very close related to get it an integrated program is created To use support all over excited sports , so maximum performance will can achieved . For coaching sport required funding that does not a little because system coaching This will includes and involves all over systems and ranks that exist in Indonesia. Analysis results indicator funding for SSB Trio Muda Jogotirto , Regency Sleman as following :

Table 7. Average Results of Funding Indicators

Indicator	Manager	Coach	Parent	Σ	Mean	Category
Athlete Development	3,2	2.9	3.19	9.29	3.10	Good
Administration	2.8	2.8	2.94	8.54	2.85	Good
Funding Indicators					2.97	Good

Based on Table 7 above shows that indicator funding for SSB Trio Muda Jogotirto , Regency Sleman on components development athlete of 3.10 in the category good and administration of 2.85 in the category Good . Based on results the show that indicator funding for SSB Trio Muda Jogotirto , Regency Sleman in the very good category .

Besides source Power human , factors facilities and infrastructure is something catalyst or liaison For realize something desired achievement . Therefore that is , facilities and infrastructure futsal is best fulfil terms Good quality nor quantity . Facilities and infrastructure sport is very fundamental thing in implementation sports , without exists adequate facilities so athlete No Possible channeled his talent in exercise in a way maximum . Analysis results indicator Facilities and infrastructure for SSB Trio Muda Jogotirto , Regency Sleman consisting of on equipment and standards completeness as following :

Table 8. Average Results of Facilities and Infrastructure Indicators

Indicator	Manager	Coach	Parent	Σ	Mean	Category
Completeness	3.1	3.3	3.13	9.53	3.18	Good
Completeness standards	2.9	2.7	2.81	8.41	2.80	Good
Funding Indicators					2.99	Good

Evaluation of Young Trio Football School (SSB) Development

Based on Table 8 above shows that indicator Facilities and infrastructure for SSB Trio Muda Jogotirto , Regency Sleman on components completeness of 3.18 in the category good and standard completeness of 2.80 in the category Good . Based on results the show that indicator Facilities and infrastructure for SSB Trio Muda Jogotirto , Regency Sleman in category Good .

Parent is educator main and first for children them , because from it's them child at first accept education . With thereby form First from education there is in family . In general education in House ladder That No originated reject from awareness and understanding are born from knowledge educational , but rather Because in a way natural atmosphere and structure give possibility experience build situation education . Situation education That materialized blessing exists associations and relationships influence influence reciprocally between parents and children ' Ayuna (2017: 7) states that " parents are parents adults taking part responsible answer to continuity life child , which is included in understanding This are father and mother , grandfather , grandmother , uncle , aunt , older brother or guardian " . One of factor most importantly is the role of parents , because parents have big contribution for the future his son . Analysis results indicator support from parents of SSB Trio Muda Jogotirto , Regency Sleman consisting of over SSB and athletes as following :

Table 9. Average Results of Parental Support Indicators

Indicator	Manager	Coach	Parent	Σ	Mean	Category
SSB	2.6	3.0	2.88	8.48	2.83	Good
Athlete	3,2	3.0	3.34	9.54	3.18	Good
Indicators of Parental Support					3.00	Good

Based on Table 9 above shows that indicator support from parents of SSB Trio Muda Jogotirto , Regency Sleman in the SSB component was 2.83 in the category good and athlete of 3.18 in the category Good . Based on results the show that indicator support from parents of SSB Trio Muda Jogotirto , Regency Sleman in category Good . Furthermore analyzed in a way whole from evaluation Input component coaching achievements of SSB Young Trio Jogotirto , Regency Sleman based on indicator source Power people , trainer programs , funding , facilities and infrastructure , and parental support following :

Table 10. Average Results of Input Components

Input Components	Mean	Category
Human Resources	2.8	Good
Trainer Program	3.25	Good
Funding	2.97	Good
Infrastructure	2.99	Good
Parental Support	3.0	Good
Input Components	3.00	Good

Process evaluation is used For detect or predict design procedure or design implementation during stage implementation , providing information For program decisions and as recording or files procedures that have been done happen . Process evaluation includes collection of assessment data that has been determined and implemented in practice program implementation . Basically process evaluation for know until the extent of the plan has applied and components what is necessary repaired . Whereas according to Suharsimi Arikunto , process evaluation in the CIPP model refers to " what " (what) activities are carried out in the program, " who " (who) is the designated person as underwriter answer the program, " when " (when) activities will finished . In the CIPP model, process evaluation is directed at how much Far activities carried out in the program already accomplished in accordance with plan . Furthermore analyzed in a way whole from evaluation process components coaching achievements of SSB Young Trio Jogotirto , Regency Sleman based on indicator program implementation and coordination :

Table 11. Average Results of Process Components

Input Components	Mean	Category
Program Implementation	3.22	Good
Coordination	3.23	Good
Process Components	3.23	Good

Product evaluation includes determination the extent to which the program objectives have been achieved achieved . Evaluation product discuss about achievements that have been made achieved athlete , fine from regional level up to level national . Performance is yardstick measuring success a coaching program that has been executed , increasingly Lots achievements achieved

Evaluation of Young Trio Football School (SSB) Development

, will the more good coaching program . Achievement is also a thing pride for all parties connected therein and all supporting aspects success achievement performance the . Furthermore analyzed in a way whole from Product evaluation components coaching achievements of SSB Young Trio Jogotirto , Regency Sleman based on indicator program implementation and coordination :

Table 12. Average Results of Product Components

Input Components	Mean	Category
Performance	2.92	Good
Well-being	3.04	Good
Process Components	2.98	Good

Based on the above results , yes determined criteria success evaluation of the implementation program coaching achievements of SSB Young Trio Jogotirto , Regency Sleman based on Context, Input, Process, Product (CIPP) aspects as in Table 13 as following :

Table 13. Criteria for Successful Evaluation of the SSB Achievement Development Program Jogotirto Young Trio, Sleman Regency

No	Evaluation Aspect	Score	Criteria
1	<i>Context</i>	3.11	Good
2	<i>Inputs</i>	3.00	Good
4	<i>Process</i>	3.23	Good
5	<i>Products</i>	2.98	Good
CIPP Evaluation		3.08	Good

Based on table 13 above , shows that evaluation of the implementation program coaching achievements of SSB Young Trio Jogotirto , Regency Sleman of 3.08 in category Good . Evaluation based on each component can explained as as follows : 1. Context of evaluation of the implementation program coaching SSB Young Trio Jogotirto , Regency Sleman , amounting to 3.11 in category Good . 2. Input for evaluation of the implementation program coaching achievements of SSB Young Trio Jogotirto , Regency Sleman , amounting to 3.00 entry category good 3. Implementation program evaluation process coaching SSB achievement of Trio Muda Jogotirto , Berbah , Sleman , amounted to 3.23 entry category Good . 4. Product evaluation of the implementation program coaching achievements of SSB Young Trio Jogotirto , Regency Sleman , amounting to 2.98 entry category Good

CONCLUSION

Program evaluation is a systematic and subjective assessment of an object, program or policy that is ongoing or has been completed, both in terms of implementation design and results, where the aim of program evaluation is to determine the relevance and achievement of objectives, efficiency, effectiveness, impact and sustainability, where an evaluation must provide reliable and useful information to be able to draw lessons for the decision-making process. Agustanico (2017: 1) states that evaluation is a procedure or tool used to find out and measure something in an atmosphere with predetermined rules and methods. As for program evaluation, it is an investigative activity held in a way systematic about something of value and worth from something object . Difference evaluation and program evaluation are distinguished by the above opinion . Emphasis on program evaluation viz about investigation in a way systematic to something of value and worth from object the . It means program evaluation is carried out No only when the program ends , but can done since the start of the program walk . In implementation evaluation Lots We hear There are many evaluation models , usually the evaluation model is used customized with type the object being evaluated or customized with need . Development sport national Can done as good as possible , necessary components and components the are (1) aims , (2) management , (3) energy , (4) athletes , (5) facilities and infrastructure , (6) program structure and content , (7) resources learning , (8) methodology , (9) evaluation and research , and (10) funding (Allung , et al ,, 2019). Similar thing expressed Harsuki (2013: 37) that components inside system coaching sport national are : (1) objectives , (2) management , (3) factors personnel , (4) athletes , (5) facilities and infrastructure , (6) program structure and content , (7) resources learning , (8) methodology , (9) evaluation and research , and (10) funding.

One of the most important thing in success something performance sport is planning practice , as stated by Singh (2012: 26) . exercise is a basic process preparation For more performance high process designed For develop ability motoric and psychological improvements ability somebody . Based on results study so to trainers and researchers else , given recommendation as following . 1. Should CIPP evaluation is implemented by SSB Trio Muda Jogotirto , Regency Sleman so you can get it made consideration in taking decision . 2. Should coach Keep going develop knowledge his coaching with method fulfil ideal conditions as coach and follow training , so can create outstanding athletes . 3. Should government Regency Sleman give support Good in form coaching program

Evaluation of Young Trio Football School (SSB) Development

policy futsal and sports in form facilities and infrastructure adequate exercise in accordance standard international that can support athlete capable achievement . 4. Research This form evaluation coaching achievements of SSB Young Trio Jogotirto , Regency Sleman , preferably researcher furthermore can research about CIPP analysis for branch sport football , so can made guidelines for SSB Trio Muda Jogotirto , Regency Sleman in develop a coaching program in accordance with condition latest .
